

WFOT Welcomes Occupational Therapy Assistant Membership

WFOT has responded to the interest and support shown by Occupational Therapy Assistants (OTAs) in the global profile of WFOT by endorsing the new '**Occupational Therapy Assistant Membership**' at the Council Meeting, March 2016.

This landmark initiative will enable occupational therapy assistants (estimated at over 49,000 around the world) who are members of their national Member Organisation to become WFOT members. As WFOT members, OTAs will be able to participate in and promote the work of WFOT and occupational therapy internationally.

This new category will be effective from January 2017. More information will be available at www.wfot.org

WFOT looks forward to welcoming Occupational Therapy Assistants as members and active participants in our vital and vibrant global organisation.
